According to the National Institute on Drug Abuse, the three classes of prescription drugs that are most often abused include:

- **OPIOIDS**
  - Commonly used to treat pain.
  - e.g.: Oxycontin®, Vicodin®, Percocet®

- **CNS DEPRESSANTS**
  - Commonly used to treat anxiety and sleep disorders.
  - e.g.: Xanax®, Ativan®, Valium®

- **STIMULANTS**
  - Commonly used to treat ADHD.
  - e.g.: Adderall®, Ritalin®, Dexedrine®

All of these prescription medications are controlled substances and have a high potential for abuse and addiction.

Prescription instructions are not suggestions. Follow the instructions of your doctor and pharmacist.

Do not use someone else’s prescription medications!
