SEX SCAVENGER HUNT

SUPPLIES NEEDED:
- 2 copies of the question and answer pages
  (1 for the RA/Leader & 1 for cutting up and placing around the hall)
- Multiple copies of the Questions without the answers
  (1 for each participant)

DURATION: 30 MIN

INSTRUCTIONS:
Participants work alone or in pairs. Each person/pair is given a sheet that contains safer sex practice questions, STD questions, and list of items to find. Each person/pair has 15 minutes to answer as many questions and gather as many items as possible. The answers to the questions will be placed at various locations on the floor (i.e. doors, walls, bathrooms, etc.), and the items can be found anywhere (participant room, friends, RAs etc.). Each correct answer and item will be worth one point. After 15 minutes, the participants reconvene to tally points and discuss the answers to the questions. Every participant could receive a small prize, and the top winner could receive a larger prize.

SCAVENGER HUNT ITEM LIST:
- Male condom
- Questions and Answers
- Condom instructions
- Lubricant
- Photo of a place to get a condom

SEX TIC-TAC-TOE

SUPPLIES NEEDED:
- Questions and answers about sexual health
- Large white board or piece of paper so you can write or attach X’s and O’s
- X’s and O’s or writing utensil

DURATION: 30 MIN

INSTRUCTIONS:
Divide participants evenly into two groups, one is X’s, the other O’s. Flip a coin to see which group starts first. Ask members of each team sexual health trivia from the questions provided. The group has 10 seconds to arrive at an answer. Only one guess will be allowed per question. If the group answers the questions correctly, they are allowed to place the X/O strategically on the board and are entitled to another question opportunity until they answer incorrectly. If a group answers incorrectly, they forfeit their turn and that same question is asked to the opposing team. If the opposing team answers incorrectly, the correct answer should be read out by the leader before continuing. Whichever team gets the first succession of aligning X’s and O’s wins the game. Enjoy!
