SAFE TRAVELS

No matter how you’re getting to your destination, it is important to be prepared!

- Always carry identification and your insurance cards.
- Let someone who isn’t with you know where you will be.
- Make sure your cell phone is fully charged and you have a charger with you.

If driving:
- Don’t text while driving.
- Make sure your car is in good condition before you leave.
- Take turns driving. The person who sits shotgun should always stay awake.

If leaving the U.S.:
- Determine if you need any vaccinations. SIU has a travel clinic in the Student Health Center.
- Learn what the 911 equivalent is for that country.
- Keep copies of your passport, travel and financial documents separate from the originals.
