

SHARING SEX TOYS (LIKE VIBRATORS AND STUFF)

SHARING SEX TOYS: (LIKE VIBRATORS, FOR EXAMPLE) CAN BE RISKY IF THEY HAVE VAGINAL FLUIDS, BLOOD, OR FECES ON THEM.

SHARING SEX TOYS WITHOUT CLEANING THEM OR USING A CONDOM CAN POTENTIALLY EXPOSE A PERSON TO STIs.

THE SAFEST PRACTICE IS NOT TO SHARE SEX TOYS. BUT IF YOU'RE IN THE SHARING MOOD, **USE A CONDOM.**

WITH TOYS THAT CAN BE INSERTED INTO THE VAGINA OR ANUS, **PUTTING A CONDOM ON THE TOY IS BEST.**

FOR SHARED TOYS THAT THE PENIS IS INSERTED INTO, **A CONDOM MAY BE WORN.** ITS ALSO IMPORTANT TO CHANGE THE CONDOM BEFORE ANOTHER PERSON USES THE TOY SO ANY BODY FLUIDS OR INFECTIOUS ORGANISMS ARE NOT PASSED ON TO THE PARTNER.

REMEMBER TO ALWAYS CHANGE THE CONDOM WHEN MOVING FROM THE ANUS TO THE VAGINA TO PREVENT POSSIBLE INFECTION.
